

# New Hampshire Distributors New Warehouse Addition

CONCORD, NH

New Hampshire Distributors, facing surging sales and seeking warehouse expansion, partnered with The H.L. Turner Group Inc. (TTG) for an ingenious solution. A 12-foot roof for a new automated picking system threatened snow drifts and operations. TTG's creative engineering helped NH Distributors overcome seemingly insurmountable obstacles.

Beyond functionality, TTG prioritized energy efficiency, low maintenance, and future growth capacity. This groundbreaking project exemplifies TTG's dedication to innovative engineering and delivering tangible results for clients. It unquestionably embodies the spirit of the ACEC-NH Excellence in Engineering Awards and deserves recognition.

Minimized disruption by keeping construction external, ensuring continuous operations.

Increased storage capacity through efficient vertical space utilization.

Boosted order fulfillment with significantly reduced times.
